

## About Us

We are a group of professional facilitators and coaches who have become good friends over the years. We have like minded views on how to help people improve their standards of living and working. Most of us are expatriates, living and working all over the world.

We work under the umbrella of Experience UK Ltd which was formed by Andy Ryder in 2004.

Our team members have all worked in many different business & industry sectors before becoming facilitators. It is consistently mentioned in feedback as one of the secrets of our success that we are highly motivated and energetic - we believe this is vital, to be able to energise and motivate our clients to achieve their goals.

We are talented professionals committed to helping individuals and organizations achieve outstanding levels of performance. We deliver training in the local language of the country we work in and in English depending upon the client's needs.

Please feel free to learn more about us in under "Experience Team" and read what our clients say about us under "success stories".
